Career Objective

Aspiring Python Backend Developer with a strong foundation in Python, Django, SQL, and web development. Looking for an internship or entry-level role where I can enhance my backend development skills, work on real-world projects, and contribute to the organization's success.

Education

- Bachelor of Computer Application (B.C.A) — *IMSUC(Pursuing)* | (2023_2026)
- Senior Secondary (12th), CBSE— Dewan Public school, *Hapur*, | 68.8% (2022-2023)
- Secondary (10th), CBSE— Dewan Public school, *Hapur*,|68.8% (2020-2021)

Technical Skills

- **Programming:** Python (Core), SQL
- **Database:** PostgreSQL
- **Backend:** Django, Django ORM
- **frontend:** HTML5, CSS3, JavaScript(basic)
- **Web Technologies:** HTTP Methods (GET, POST), REST API (Basic Understanding, URL Routing)
- **Tools & Version Control:** Git, GitHub, VS Code

Projects

Projects

- **Medicine Portal** | Python, Django, HTML, CSS, SQLite/MySQL
 - Developed a medicine management web application with database integration.
 - Implemented medicine search, add, update, and view functionalities.
 - Used Django ORM for efficient database operations.
- **Student Management System** | Python, Django, HTML, CSS, SQLite/MySQL

- Created a student record management system with CRUD functionality.
- Designed user-friendly forms and database-driven workflows.
- Implemented backend logic using Django views and models.

Strengths

- Strong problem-solving and logical thinking
- Good understanding of SQL and database concepts
- Ability to learn new technologies quickly
- Analytical mindset with attention to detail

Soft Skills

- Communication skills
- Team collaboration
- Time management
- Adaptability

Career Aspiration

To gain hands-on experience in Python and Django development, strengthen my backend development skills, and contribute to meaningful projects while learning from experienced professionals in the software industry.
